SUMMARY

Final-year B.Tech student in Electronics and Computer Science Engineering at KIIT with practical experience in **Python, Generative AI, LLM-powered applications, and backend development**. Experienced in **building AI applications using LangChain, Groq APIs, Flask, MySQL, and REST APIs**, with project exposure to document processing, **conversational AI**, and **AI-powered automation**. Strong foundation in **Data Structures and Algorithms, OOP, SQL**, and software engineering, with an interest in developing reliable, production-oriented AI solutions.

AT PRESENT

B.Tech in Electronics and Computer Science Engineering
Kalinga Institute of Industrial Technology (KIIT), Bhubaneswar, Odisha

Jul 2024 – May 2027
CGPA: 8.53/10

EDUCATION

Diploma in Electrical and Electronics Engineering
University Polytechnic, BIT Mesra, Ranchi

Aug 2021 – May 2024
CGPA: 8.59 /10

TECHNICAL SKILLS

- **Languages:** Python, Java, JavaScript, C
- **Frontend:** HTML, CSS, React.js
- **Backend & APIs:** Flask, Node.js, Express.js, REST APIs, JSON
- **Databases:** MySQL, SQL, Relational Database Management Systems
- **AI/ML & Data Processing:** Machine Learning Fundamentals, Deep Learning, Document Processing
- **Tools & Platforms:** Git, GitHub, VS Code
- **Core Concepts:** Data Structures and Algorithms, OOPS, DBMS
- **Others:** Communication Skill, Team Collaboration, Problem Solving, Quick Learner

INTERNSHIP

Apr 2025 – Jun 2025

Web Full Stack Developer Virtual Intern – AICTE – EduSkills Academy (*Supported by AICTE, National Internship Portals*)

- Successfully completed a 10-week Web Full Stack Developer Virtual Internship focused on web development technologies.
- Built concept and enhanced responsive web applications using HTML, CSS, JavaScript, React.js, and backend Node.js with MySQL database.
- Worked on front-end development, component-based UI design, routing, and REST API integration.

PROJECTS

AI-Powered Document Chatbot: *Python, Flask, LangChain, Groq API, PyPDF2*

Feb 2026

- Developed an AI-powered chatbot using Python, Flask, LangChain, and Groq API to answer user queries using document-based information.
- Integrated PDF text extraction using PyPDF2 to process unstructured documents and make their content accessible for conversational querying.
- Implemented backend functionality for handling user queries and generating LLM-based responses through API integration.
- Explored document processing and conversational AI workflows for extracting and presenting relevant information.

FinAdvisor AI: *React.js, Node.js, Express.js, MySQL, REST APIs*

Apr 2026

- Developed a full-stack AI-powered financial assistance application integrating backend services, database functionality, and a React.js interface.
- Implemented a secure authentication system using email/password authentication, JWT, and Google OAuth 2.0.
- Integrated AI and external API services to support conversational financial assistance and application functionality.
- Built and connected REST APIs with MySQL to manage application data and support communication between frontend and backend components.

WeatherAppResponsiveWebApplication: *HTML, CSS & JavaScript*

Nov 2025

- Built a responsive weather app integrating OpenWeatherMap API for real-time data.
- Designed adaptive UI for smooth performance on mobile, tablet, and desktop devices.
- Enabled live weather updates and dynamic user interaction with JavaScript.

CERTIFICATIONS

- 🎓 **Web Full Stack Developer** - EduSkills
- 🎓 **AI-ML** - Google, EduSkills
- 🎓 **Data Analytics** - CISCO Networking Academy
